

## It's Wonderful !

- \* "Call unto me and I will answer thee,
- \* and (I will) show thee great and mighty
- \* matters which (now) thou knowest not"

- Is. 33 : 3.

How wonderful it is to live (!) in this mad age of "science" so called. Isn't it wonderful to see inspired genius at work, perfecting hellish inventions to maim, cripple and blast out of existence, millions of the defenceless ? Isn't it just wonderful to see roving gangs set cities afire, loot and murder in our "great society" ? (sh-sh-sh it's only "war on poverty"). Just too wonderful to see the booting out of 'old fashioned' ideas and prudery, liberating man's libido, introducing "sex education" unto little ones in school!! Now this glorious emancipation from 'the fear of the Lord' and from ignorance enables teenagers to get their families well started while in school; even pre-teen girls can get a month or so off from school "to have their babies"! WHO would ever have guessed it that girls of 12-13 would now be learning to knit baby clothes ? The 'higher education'! Surely our old grandmothers must feel embarrassed to reflect on the ignorance of their own youth! Any by now youngsters have been educated to such peaks of understanding that they put on marches, sit-ins and demonstrations to tell the mature of society HOW things should be done - often costing millions of taxpayers' \$\$!

It's really wonderful! Yes, I mean it - to see the inexorable march of events, minutely fulfilling God's inerrant word of things to come (in the 'last days'); it tells me that Christ is SOON at hand : what glory!

A report is recently out how many "ministers of God" have grouped together to counsel and assist draft dodgers to thumb noses at the Government, under the cloak of "conscientious objectors". What "ministers of God"! Would more than half of 1% of those subject to the draft, happily go of their own freewill? 'Tis human nature to prefer freedom to play around. (Let OTHERS sacrifice, suffer and die. . .) If mature American society is convinced their 'Administration' is fully evil, they should arise to boot it out. If not they should see to that Law and Order is respected in every walk of life. And assuredly the men of the cloth should not abet the shirkers and hippies to evade duty (enforcible in ALL countries except deluded America) while the best of our young men (who have been brot up with respect for Law and Order) are shipped off to sacrifice - that the worthless may play around. . . What "men of the Cloth"! 'Tis Lucifer's day - in paroxysm of glee! Remember you who berate the "Johnson Administration" that the Vietnam war was well under way before his inauguration; and, that the most respected in the nation (many of them Republicans) like Eisenhower, Nixon, Rockefeller; Truman and others have in public, encouraged support for our stand in Vietnam. (No, I am not a supporter of LBJ; but rather of REASON.) The spirit of hoodlumism, DISrespect for Law, and spreading of propaganda injurious to legally constituted Government and Administrations, undermines, even weakens the nation that it may be catapulted into a 'night of horror' - in the not distant future. . .

Apparently the Ford Strike has run its course to cost its workers eight weeks' pay (about \$800 and up). Of course they have received "strikepay" to help offset their loss, but from where came

those \$\$? From their very own payroll - previously confiscated thru 'Union Law.' So the dumb clucks go back to work rejoicing in their great 'Victory'! By the time their increased pay has offset their recent heavy loss, they will be due for another 'strike'. And, incidental to their present 'success', the "cost of living" will take another jump - to be borne and endured by multitudes who are in no position to UP their income by 'shotgun tactics'. While those with small 'nest eggs' and no income can only "tighten their belts." . . . Now, other great Motor Plants will get "the heat put on".

Truckers in the Steel Industry too have had their 'holiday'. What matters it if property is ruined and many husbands and fathers murdered? 'Shotgun' tactics MUST PREVAIL! JUNGLE days are with us! I too believe the 'worker' should get a fair pay (I was born into labor and came up thru skilled trades), yet I am well convinced that the inventive genius and industrially-gearred brain of one "Henry Ford" is worth at least 100,000,000 of his workers. Without such "inventive genius" the dumbworker into this very day would still be eking out the barest existence by scratching the soil with a crooked stick!

Look back to the ancient days when Brain plus inspiration struggled thru the night for improved tools, management and conditions; while 'raw labor' learned thrift and self-management thru perspiration. As founded in that very fact, all classes surged forward. It gave them feet to stand on, and Faith to live by. In contrast we see today the outstretched begging hand; but ready to draw the knife and hand together - unless their larder is kept well stocked by those who sweat!

"Ye hypocrites" said the Christ, "you can

discern the face of the sky (our weather bureaus); but can ye not discern the SIGNS of the times ?"

This century's first decade saw the intrusion of the motorcar, fulfilling 40 years of "sings and wonders" (-Mic 7:15; Na 2:3-4) unto world Jewry before their re-establishment in Palestine. The "10 days" of persecution and murder by the "mother harlot", soon will have run their course since the middle of the 16th century (see Rev 2:10: 42 yrs x 10=420). We saw Ez 21:14 open in 1914, and now only one more World War to come (and that a 'holy terror'). The 20s began to show us "signs" in human conduct: the "flappers" who disregarded convention in style of clothes and took on "sophisticated" airs. "Coming events cast their shadows before". They 'forecast' deterioration in the Christian church. They were followed by "zoot suiters" to 'forecast' that society would fall in line with core-rot in our churches. Since then we have seen "hood" and goon gangs come and go in rapid succession, bespeaking how hell's legions are intruding, preparatory to take-over when the 144,000 depart. His "chosen people" are back in Palestine and now (at least for the moment), free from "Gentile downtreading" (Lk, 21:24). Young Israel is beginning to find its feet - as 'coming of age' (1948 - '68=20 + years): with world astounding quickness they roundly whipped the vastly greater men and arms of the U A R; now they defy the United Nations and ignore the opinion and bluster by big nations and their warships. From whence comes this power and courage? The "God of Israel" is with them! The "Fig tree" has taken root: soon the fruit. WE should discern the "signs of the times."

ABRAM'S \* In Genesis 14:8-24 we read the ac-  
BATTLE: \* count of Abram arming his 318 ser-

vants (born in his house), to make battle with the victorious "kings", including "Tidal king of nations."

This "king of nations" appellation becomes "King of Gentiles", but in pre-Israel days the word must be understood as OUTlanders': that is, foreigners.

Hilighting this portion of Biblical history was Abram's rescue of his nephew Lot who dwelt in Sodom. And Abram's strict adherence to his oath-in-righteousness: refusing to appropriate any portion of the 'spoils of war' - which even by the unrighteous king of Sodom was recognized as being Abram's rightful booty. It climaxed with Melchizedek ("priest of the most high God") blessing Abram, and receiving from the latter "tithes of all." We are not told of What Abram paid tithes, but in view of the narrative, it seems most logical to surmise the "tithes" were of the "spoils of war".

With this as with other Bible narratives our pulpit illuminati have nothing worthwhile to say: to them it is but another portion of Bible history (something that "just happened" that way in ancient times).

As my senior students are aware, ALL these episodes were God-directed dramas to reveal to us various portions of His Plan for Man, usually involving prophetic measures.

First let us grasp its main portent. Abram as a word, means "the High Father": thus portraying God in His relationship to earth's humanity (God of entire earth rather than of one nation).

"Lot" - as I have set forth in other writings, typifies that cover, or shielding (from evil) which God grants because of His 'elect' (whether we ap-

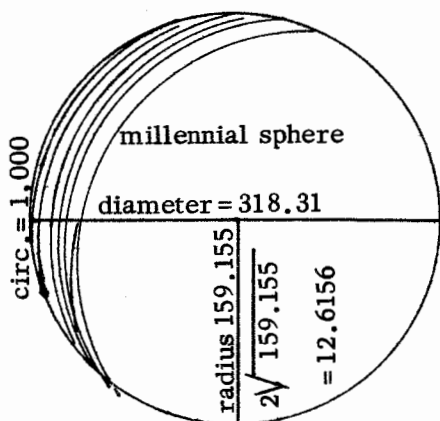

ply that word in an earthly or spiritual sense). Thus Lot together with his household becomes the Church of Christ. But because Lot did dwell in Sodom, the symbology narrows down to that vastly larger portion of His who have "defiled their garments" - stained by Sodom's rampant lusts of the flesh. That household answers to the "five foolish virgins": that vast multitude to be taken out of this world shortly before the "great tribulation" terminates.

In this narrative we see Lot and his household in Sodom taken captive by "King of the nations" and his confederates. This prophetically graphs for us what His word elsewhere declares, that at the end of our age there shall be a great "falling away" when "the love of many shall freeze out." This Lot-portion of His Church is permitting their cleansed minds to become corrupted by "Sodom" in spite of the fact that at some previous date they had come to know their Lord and Redeemer, and been cleansed in His blood. They are HIS, yet such He cannot take into His upper Kingdom. Therefore He plans their going into captivity to "Tidal - King of Nations" (Lucifer) to the end that thru suffering they may come to repent. AFTER THAT God will rescue them (Abram's battle).

That you may better understand the prophetic equation appended, we will first look at what I term "the millennial sphere" with some of its factors:

As you may see on the following page a sphere measuring one thousand around has a diameter of nearly 318.31. Thus the square root of its radius becomes 12.6156.

You are aware how the radius is that arm by which we can draw a circle.

I have also shown how God squares numbers to achieve His objective on the earth-plane. So, since God must figure back from His intended objective, we extract the sq. root of the radius, rather than squaring it. Thus 12.6156 becomes the basic factor.

WHY should we link Abram's Battle with the millennial sphere? We see by the account that Abram had 318 servants born in his own house. Look above to the diameter of the millennial sphere: it is but a small fraction over 318! Eons before Abram was born, God had selected him to father a peculiar people, to execute a terrific mission - as a portion of His Plan for creation. Since the God of Abram was the Grand Architect of the Universe, are we assuming too much to postulate that HE had pre-determined the exact number of slaves to be born unto Abram? (I am well convinced that was but a minor matter with Him).

Now that you perceive the basic thot and pattern let us look to the prophetic equation. Abram "armed his 318 slaves." Should we suppose that he went without arms? But nay: he was the captain-

HEADING his 318 soldiers of war. Abram became the 319th. So, the Abramic battalion

$319 \times 12.6156 = 4024.4$  added to year of Abram's birth in 1946. A.M.  
= 5970.4 A.M.

which - according to the chronology I have used two decades and more, reaches to close of 1971 A.D.

Since the Bible chronology is but in 'round numbers', the above could be either minus or plus, yielding from early 1971 into late 1972 A.D.

By this God shows us that as approximating 4,024 years from Abram's birth, He is going to rescue the 'Lot' group of His church from the clutches of Lucifer. So far as I can discern His plan, that can only be accomplished thru what is commonly called the "translation of His saints", which He has scheduled to take place two weeks previous to Armageddon's end.

Once more we see a near precision agreement with the numerous prophetic equations I have set before you during the last 10 years and more. . .

Incidentally, that square root number (12.6156) is also important in His second witness (the Great Pyramid of Gizeh), but  $\times 10$ . But there it is the 1st point of contact with granite on the floor-line beyond the Great Step. The Step was contacted in 1844 on Jan 22. In the Pyramid, granite bespeaks the Divine.

Back to Abram's Battle and Melchizedek to whom Abram "paid tithes of all." That "Priest of the most High God" was also "King of Salem." Thus, in that dual office he symbolized JESUS Christ -- Who is to receive tithes from 'Abram'. While 'Abram' as you have seen, portrays 'the

Most High God."

In the mighty dramas planned by the Most High, what will HE give unto Christ as a 'tithe'? And that something to also be intrinsic to Abram?

Precious gems? gold - silver - cattle? Hardly! But the "Bride" of Christ, being "a first fruits unto God and the Lamb." Their count: 144,000. IF then, 144,000 is a "tithe", that means they are but 10% of the total, placing the latter at 1,440,000.

Since the 'DAYS' of the week are '7' and that being the number of His Church and Bride, the above total means that many days. Thus:

$$\begin{array}{r} \frac{1,440,000}{365.242+} = 3,942.586 \text{ years, added to} \\ 1,946 \text{ A.M. as Abram's birth} \\ + 75 \text{ as Abram's "call".} \\ \hline 5,963.5+ = 1965 \text{ A.D. But bear} \end{array}$$

in mind that as above no time allowance has been reckoned for Abram's sojourn in Egypt (Gen 12: 10 thru 13: 1), neither that which preceded and followed until his "battle" (14: 14). Since there is an intervening chapter before Sarai suggested that they seek children thru Hagar the maid (16: 1 - 3) which was 10 years following his 'Call', we must assume that the Battle was previous to the matter of Hagar. That would add a maximum 10 years to the above, necessitating the prophetic measure above to expire some time between 1965 and 1975 A.D. That means the "Firstfruits" must go UP before the summer of 1975 A.D.

The 1946 as above for Abram's birth, is according to our Bible chronology rather than other wouldbe authorities. But Gen 11:10 could mean 2 years more. In either event, OUR TIME IS SHORT!
